

STUART LAKE HOSPITAL JUNIOR VOLUNTEER PROGRAM

The age for youth volunteers (boys and girls) is 15-18 years. The hours of work are flexible but are generally between 3:30 and 5:30 on weekdays and at the volunteer's discretion on weekends.

The program is in constant flux based on the Auxiliary volunteers available to help out, the number of junior volunteers enrolled and the needs of the hospital. An orientation is held before volunteers are set to work and includes topics such as wheelchair safety, fire safety, infection control (hand washing and personal hygiene etc.), working with elderly and people with dementia, communication and duties and responsibilities. Northern Health also requires all volunteers to complete an on line training course prior to the start of volunteer hours.

The Hospital Auxiliary of Stuart Lake Hospital is the program sponsor and is responsible for providing a uniform and learning materials.

Junior Volunteers are very important members of the Stuart Lake Hospital community which includes patients, residents (extended care) and staff.

Becoming a Volunteer:

Steps involved:

- 1. Forms:** Download the application form from the Auxiliary website (hospitalauxiliary.fortstjames.com). Hard copies will also be left at the school.
- 2. Call one of the numbers below to arrange to have your application picked up or email it to hfrederick52@gmail.com. You will then be scheduled for a brief interview to determine suitability and then informed of the orientation date.**

For more information about the Junior Volunteer Program at Stuart Lake Hospital.

VOLUNTEER OPPORTUNITIES for YOUTH

A Program
of the
British Columbia Association
of Health-Care Auxiliaries

What's in a Name?

Member auxiliaries in the BCAHA are the sponsors of the youth program in the Province of BC.

Each auxiliary decides what they will call their group:

- Volunteers
- Youth Volunteers
- Candy Strippers, Cadets
- Junior Volunteers

How the Program Works

Each auxiliary appoints and supports an advisor or a convener to oversee the youth program. They will work alongside the staff at the health care facility to coordinate the program. Together they will determine the best way to engage youth in meeting the needs of patients and residents.

Why do I want to be a Volunteer?

- Scholarship, Bursary opportunity
- Meet new friends
- Develop self-confidence
- Explore possible careers in health care
- Add experience to my resume
- Help others
- Reference letters from professionals for future employment
- Community hours for graduation

What will I learn from this?

- To follow instructions
- To work with others
- To work independently
- To communicate effectively
- To enjoy the rewards of helping others

What tasks might I perform?

The tasks you do will depend on the needs of the facility. Examples of some of the tasks are:

- Visit with patients or residents
- Play a game, look at a magazine together and be a friendly visitor
- Stock carts and rooms with needed items
- Direct patients and visitors
- Deliver meals
- Refill water containers
- Assist with feeding, only if you have been trained
- Deliver flowers
- Assist with auxiliary functions in the hospital and the community
